TECNOVE

BUSINESS GROUP

“WORKING TOGETHER FOR YOU”

Tecnove Business Group is a holding company made up of 10 companies which work together on a daily basis to maintain the leadership in each of the sectors in which they are present.

The knowledge and experience of 35 years of career, as well as the contribution of each every one of the companies, allow us to optimise results, provide integrated solutions, and offer the best products and customised services anywhere in the world.

VEHICLES

We design, manufacture and maintain all types of bobywork and special vehicles, incorporating the latest technology and customisation of our units.

CONTAINERS

We design and manufacture containers and shelters for all types of activities and uses, both civil and military.

COPORATE IMAGE

We create and implement the image, the furniture and the digital media for any company.

CSC

We design, build and manage modular buildings and modular facilities ensuring maximum efficiency anywhere in the world.

TELECOM

Services applied to telecommunications: Fixed and mobile networks, Outsourcing-logstic engineering, Infraestructure and Civil Works

AGRIBUSINESS

We commercialize phytosanitary products, industrial cleaning, advice and management of wine-growing, other crops and forestry planning and management.

ELECTRICAL SOLUTIONS

We carry out the management and maintenance of photovoltaic and thermosolar plants as well as the processing and management of electrical installations in general.

REMARKETING

Reconditioning of fleets of used cars for the commercialisation in the second-hand market through online channels.

TECNOVE

Tecnove has a corporate history and accumulated experience of 35 years, having the necessary capacity to offer a quality service wherever the client requires it. Tecnove's business areas are focused on:

The manufacture, repair and maintenance of all types of vehicles and special containers.

Catering, services and construction of modular buildings and temporary of fixed facilities.

Forestry management and advice for public or private institutions.

Tecnove has its headquarters in Herencia (Ciudad Real). It also has a commercial office in Madrid and international delegations strategically located to meet the need of our customers.

We manufacture mobile health and emergency units, specially adapted for those situations and places where conventional health care can't reach or where it's necessary to deploy troops and resources to respond to major emergencies or catastrophes.

This mobile units are equipped with all the necessary equipment to ensure that the work of medical or emergency personnel is safe, quick and efficient.

These units can be equipped with everything from analytical, laboratory or diagnostic equipment to operating rooms and intensive care units; they can even be equipped with isolation means to avoid contagion or contaminants transmission, such as air filtering units and positive pressure systems.

AMBULANCES

Ambulances

We have extensive experience in the manufacture of ambulances for different missions, covering needs ranging from the transfer of patients, individual or collective, to intensive care units or basic life support. All of them can be adapted for civil or military use.

The units are manufactured in different formats and vehicle types, and can be manufactured on vans or cars and with 4x2 or 4x4 traction. TecnoVe has become the official distributor in Spain of AMBULANZ MOBILE.

Mobile Medical Units

We adapt to the needs of each client to offer an optimal and functional solution, providing our personalised advice and technical recommendations regarding the interior layout of the mobile unit (reception, medical area, technical area...), make, type of vehicle and model depending on the country of destination.

MOBILE MEDICAL UNITS

In addition, and thanks to the technical knowledge of our professionals, we always incorporate the medical equipment that best adapts to the characteristics chosen by the client. Therefore, each unit is individually designed and manufactured, being unique and exclusive.

We manufacture specific units, generating a space adapted for quality primary care, in which each patient receives personalised attention and can be treated with state-of-the-art equipment.

MEDICAL EQUIPMENT

We have the latest and best equipment in the market of each specialty to which it is aimed.

CUSTOM FURNITURE

We make all types of furniture to meet the need in each of the different areas.

HYDRAULIC EQUIPMENT

We manufacture the best hydraulic equipment for each of the models demanded by the customer.

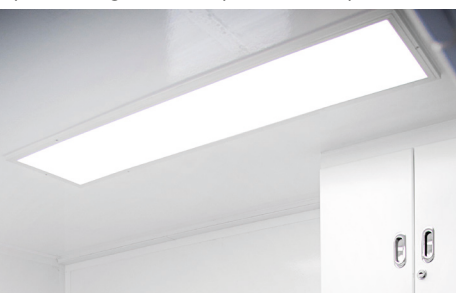

ENGINE

Latest generation engines together with the best services that can be offered in the current market.

LIGHTING

We prepare the best lighting system, evaluating the interior of the model, providing the best possible experience.

SLIDE-OUT LATERALS

We produce slide-out laterals in order to expand the interior space of all models to improve the customer and user experience.

STAIRS

We enjoy the best system of folding stairs with the aim of making the most of the space possible.

EXTENDABLE AWNING

We have the latest models of extendable awning in the market, with a great capacity to adapt to the requested model.

EMERGENCY VEHICLES

Emergency vehicles

In the most demanding situations, vehicles must respond with guarantee and reliability. For this reason, Tecnove specialises in advising its customers, manufacturing special bodyworks and mobile units for unforeseen situations that affect a large number of people, such as large forest fires or natural disasters.

FIELD HOSPITAL

TECNOVE offers a complete hospitals with total autonomy for their operation, which can be easily transported and deployed anywhere in the world, including remote locations, to guarantee specialised medical care wherever it is needed.

Field hospital

Depending on the needs and indications of our clients, the field hospital can be designed in truck, tent and container formats, or even in a combination of the 3 proposals.
