## BUSINESS GROUP

### “WORKING TOGETHER FOR YOU”

Tecnove Business Group is a holding company made up of 10 companies which work together on a daily basis to maintain the leadership in each of the sectors in which they are present.

The knowledge and experience of 35 years of career, as well as the contribution of each and every one of the companies, allow us to optimise results, provide integrated solutions, and offer the best customised products and services anywhere in the world.

#### VEHICLES

We design, manufacture and maintain all types of bodywork and special vehicles, incorporating the latest technology and customisation of our units.

#### CONTAINERS

We design and manufacture containers and shelters for all types of activities and uses, both civil and military.

#### CORPORATE IMAGE

We create and implement the image, the furniture and the digital media for any company.

#### CSC

We design, build and manage modular buildings and modular facilities ensuring maximum efficiency anywhere in the world.

#### TELECOM

Services applied to telecommunications: Fixed and mobile networks, Outsourcing- logistics engineering, Infrastructure and Civil Works.

#### AGRIBUSINESS

We commercialize phytosanitary products, industrial cleaning, advice and management of wine-growing, other crops and forestry planning and management.

#### ELECTRICAL SOLUTIONS

We carry out the management and maintenance of photovoltaic and thermosolar plants as well as the processing and management of electrical installations in general.

#### REMARKETING

Reconditioning of fleets of used cars for the commercialisation in the second-hand market through online channels.

## TECNOVE

Tecnove is a leading company with more of 30 years of experience, we have the necessary capacity to offer a quality service where the customer requires it.

Tecnove's business lines focus on:

- The manufacture, repair and maintenance of all types of special vehicles and containers.
- Catering, services and construction of modular buildings and temporary or fixed installations.
- Management and forestry advice for public or private institutions.

Tecnove has its headquarters in Herencia (Ciudad Real). It also has a commercial office in Madrid and international delegations strategically located to meet the needs of our clients.

The experience gained over the years in the manufacture of special vehicles has been one of the keys to our success in the construction of vehicles and products destined to the ground support market for aircraft -GSE- (Ground Support Equipment).

Our main commitment in this sector is the production of hydraulic truck lift that integrate our own lifting system, created to optimize the performance of the vehicle.

The equipment undergo rigorous quality tests to ensure their accuracy and control when approaching the aircraft safely.

Our know-how allows us to offer fully configurable solutions that adapt to the operating requirements of all types of aircraft from large manufacturers such as Airbus, Boeing, ATR, Embraer.

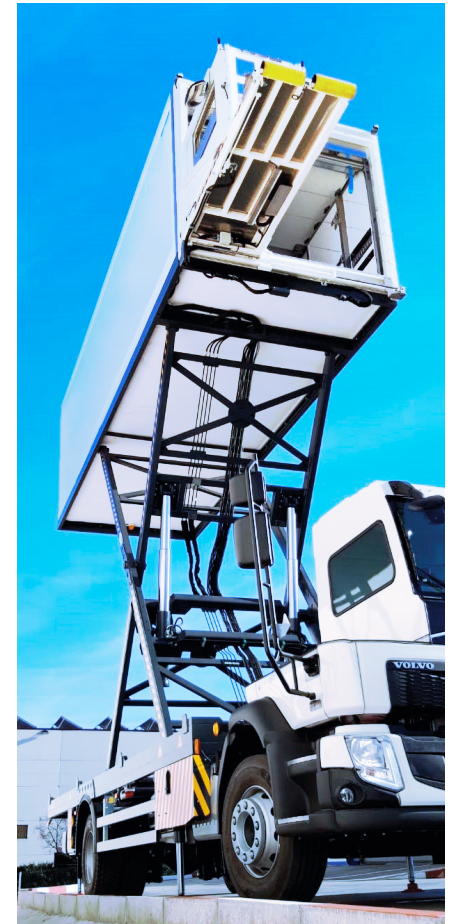

We build catering vehicles specially designed to cover food supply services on commercial aircraft.

## Catering

The vehicles we manufacture allow our customers to have a wide range of possibilities, both in the payload of the vehicle and in the height of deployment of the lifting system; being able to adapt to all types of aircraft and specifications.

For our GSE equipment we use engines and chassis from the best brands: Volvo, Renault, and Mercedes among others, which provides the necessary reliability to work under the rigorous conditions required by airport operations. We are the leading company nationwide in the manufacture of this type of equipment.

## AMBULIFT

## Ambulift

We adapt vehicles to facilitate easy and safe access for people with reduced mobility to any type of aircraft. The interior of the vehicle is fully conditioned and air-conditioned. The module has mooring systems with rails located on the ground that allow the anchoring of wheelchairs and stretchers.

In addition, it has a row of folding seats located on one of the sides for other travelers or passengers. Our systems have lifting platforms for stretchers and wheelchairs equipped with the corresponding safety elements to provide a comfortable and efficient service to travellers.

We provide vehicles designed for the execution of maintenance operations in aircraft. These vehicles are equipped with the necessary space and equipment to carry out the maintenance tasks of the aircraft.

## MAINTENANCE VEHICLES

We offer a wide range of products and services intended to serve any cleaning activity such as tankers for the supply of drinking water or waste water removal, among others.

## CISTERNS

## Cisterns

Trucks specially designed to service different aircraft. The tanks have a capacity from 1.000 l to 3.000 l. These units can be adapted depending on the customer needs with different options like a rear basket or an automatic hose reel.

## SPECIAL VEHICLES

Tecnove also offers other products to cover the different needs within the airport, and thanks to the feedback obtained from our customers, we are increasing this portfolio of products.

## DEVICES AND SYSTEMS

## Devices and Systems

We have a wide range of devices and systems with different functionalities adapted for different specific tasks.

Tecnove devices and systems bring a series of precise features that allow them to provide the user with a comfortable and intuitive experience.

We provide remote control diagnostic systems, control panels, electrical systems, lifting systems and hydraulic systems among others.
