ELECTRICAL SOLUTIONS

We carry out the management and maintenance of photovoltaic and thermosolar plants as well as the processing and management of electrical installations in general

REMARKETING

Reconditioning of fleets of used cars for the commercialisation in the second-hand market through online channels

TECNOVE

Tecnove has a corporate history and accumulated experience of 35 years, having the necessary capacity to offer a quality service wherever the client requires it.

Tecnove's business areas are focused on:

- The manufacture, repair and maintenance of all types of vehicles and special containers.
- Catering, services and construction of modular buildings and temporary of fixed facilities.
- Forestry management and advice for public or private institutions.

Tecnove has its headquarters in Herencia (Ciudad Real). It also has a comercial office in Madrid and international delegations strategically located to meet the need of our customers.

The Armed Forces and the State Security Forces and Corps have to carry out highly committed missions, in which their mobility, their deployment capacity and their own security is clearly linked to the means, equipment and vehicles they use in their mission.

In Tecnove we are proud to contribute for many years being suppliers of the army and security forces of these equipments and units, always offering innovative products that combine quality, reliability and resistance.

MILITARY VEHICLES

Military Vehicles

In TECNOVE we have developed great industrial capacities for the manufacture of vehicles for military use, having worked with the main technological companies and the largest manufacturers in the Defence and Security sector. Tecnove is a supplier to international organisations such as NATO, UN and the EU, as well as to the Spanish Ministry of Defence and the Portuguese Ministry of Defence, among others.

We provide solutions to any need for the transformation of light or heavy vehicles for military use, adapting the structure, chassis or bodywork to accommodate additional elements or to improve performance.

We also build fully autonomous and equipped mobile units such as air control towers, telecommunications command posts (on-vehicle or shelter) or vehicles for troop transport and military logistics.

POLICE AND ARMORED VEHICLES

We design, transform and equip all types of vehicles for use by different security forces: National Police, Civil Guard, Regional and Local police forces, etc.

We build on chassis of any brand, in sedan, off-road, van, pickup... and with all types of engines: electric, hybrid, thermal engines...

Furthermore, at the customer's request, we can equip police units with partial or total armour elements; this is a made-to-measure service that covers any need and guarantees the complete functionality and safety of the vehicle in its mission.

Police and armored vehicles

We can also build armoured vans for the transport of cash, transforming any model (light, medium, heavy) with loads from 500Kg to 8 Tons; offering different levels of armouring according to protection criteria in accordance with the client's needs.

All our armour complies with national and international standards, approvals and regulations.

We have extensive experience in the manufacture of Field Hospitals, of the highest quality and custom-designed according to the client's specifications.

They are complete hospitals with total autonomy for their operation, which can be easily transported and deployed anywhere in the world, including remote locations, to guarantee specialized medical care wherever it is needed.

Depending on the needs and indications of our clients, the field hospital can be designed in truck, tent and container formats, or even in a combination of the 3 proposals.

FIELD HOSPITAL

We manufacture mobile health and emergency units, specially adapted for those situations and places where conventional health care can't reach or where it's necessary to deploy troops and resources to respond to major emergencies or catastrophes.

This mobile units are equipped with all the necessary equipment to ensure that the work of medical or emergency personnel is sage, quick and efficient.

HEALTH VEHICLES

Health

These units can be equipped with everything from analytical, laboratory or diagnostic equipment to operating rooms and intensive care units; they can even be equipped with isolation means to avoid contagion or contaminants transmission, such as air filtering units and positive pressure systems.

CATERING SERVICES CONSTRUCTION

Tecnove CSC has more than 20 years of experience in the management of military camps, having participated in large projects located in areas with very limited resources of difficult to access.

Our offer for these camps is wide and assorted, from catering, logistics, maintenance of the facilities, to hairdressing services, gym or library among others.

Our mission is to adapt to the needs of our client and the destination of the operation, to create a home wherever it is needed.

TECNOVE has a specialised team made up of chefs, waiters and auxiliary personnel to guarantee in the Operations Zones that the members of the armies deployed in these complex mission have a assorted, top-quality and with the energy intake that suck mission requires.

CONTAINERS

Containers

We have a long experience in the construction, adaptation and reconditioning of containers, fully configured to adapt them to the needs of each customer.

Design for different uses, standing out medical containers, refrigerated containers, mobile garages and containers for special uses.

Our containers are manufactured in accordance with international standards for sea, air or land transport and we are able to adapting to any needand requirement. We manufacture laterally expandable containers, modular compartmentalised containers and any other customised solution.
