TECNOVE

BUSINESS GROUP

“WORKING TOGETHER FOR YOU”

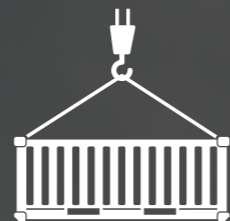

Tecnove Business Group is a holding company made up of 10 companies which work together on a daily basis to maintain the leadership in each of the sectors in which they are present.

The knowledge and experience of 35 years of career, as well as the contribution of each every one of the companies, allow us to optimise results, provide integrated solutions, and offer the best products and customised services anywhere in the world.

VEHICLES

We design, manufacture and maintain all types of bodywork and special vehicles, incorporating the latest technology and customisation of our units.

CONTAINERS

We design and manufacture containers and shelters for all types of activities and uses, both civil and military.

COPORATE IMAGE

We create and implement the image, the furniture and the digital media for any company.

CSC

We design, build and manage modular buildings and modular facilities ensuring maximum efficiency anywhere in the world.

TELECOM

Services applied to telecommunications: Fixed and mobile networks, Outsourcing-logistic engineering, Infrastructure and Civil Works

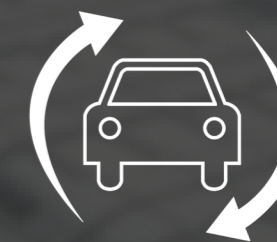

AGRIBUSINESS

We commercialize phytosanitary products, industrial cleaning, advice and management of wine-growing, other crops and forestry planning and management.

ELECTRICAL SOLUTIONS

We carry out the management and maintenance of photovoltaic and thermosolar plants as well as the processing and management of electrical installations in general.

REMARKETING

Reconditioning of fleets of used cars for the commercialisation in the second-hand market through online channels.

TECNOVE

Tecnove has a corporate history and accumulated experience of 35 years, having the necessary capacity to offer a quality service wherever the client requires it.

Tecnove's business areas are focused on:

- The manufacture, repair and maintenance of all types of vehicles and special containers.
- Catering, services and construction of modular buildings and temporary or fixed facilities.
- Forestry management and advice for public or private institutions.

Tecnove has its headquarters in Herencia (Ciudad Real). It also has a commercial office in Madrid and international delegations strategically located to meet the need of our customers.

ISO 9001 • ISO 14001
ISO 18001 • ISO 22000
ISO28000 • PECAL-AQAP 2110
UNITED NATIONS GLOBAL NETWORK

We build a home where our customers need it, offering a comprehensive solution for camps, living bases or modular buildings. Tecnove takes care of the construction of the facilities until the provision of all the necessary services to guarantee their operation.

Tecnove has the capacity to reach remote or hard-to-reach areas, accompanying companies that are developing large infrastructure projects, humanitarian agencies or military contingents in peace missions. Our main objective is to offer excellent living conditions to the human team displaced to each project or mission to facilitate their day to day.

Tecnove offers catering services for companies and communities, public and private centers, offering a service of the highest quality advised by experts.

CATERING

Our catering services are aimed at various areas, from the hospital to the military, ensuring that each menu we prepare meets specific nutritional requirements and adapted to the needs of each diner according to their health, geographical or cultural situation through quality ingredients and strict preparation stages.

Tecnove manages the supply of food products and their logistics to ensure personalized food for those who need it

Tecnove has more than 20 years of experience in the supply, logistics and feeding of soldiers in peacekeeping missions; specializing in reaching where no one else can: areas at risk for war, political or social conflict.

We offer the possibility of full catering services to companies immersed in macroprojects located in areas of difficult access, such as energy, mining or oil.

To do this, we prepare, cook and serve menus in a specific way according to the preferences and needs of the customers, the characteristics of the project or the geographical origin of the diners.

We provide full catering services in large companies dining room. These services are based on the planning of the daily activities in kitchen, with service of three meals daily (breakfast buffet, lunch and dinner) and even meals of night support to attend special situations that could arise.

In addition, we have other special services such as live cooking, making take-out menus or nutritional advice.

MOBILE CATERING · NUTRITIONAL COURSES · GASTRONOMIC DAYS

We work hand in hand with institutions to bring supply and food services to centres where this is a critical factor, such as hospitals or residences.

To do this we have the best suppliers in the sector to guarantee a variety of menus of the highest quality, prepared and placed under the strictest supervision of our nutritionists.

HOSPITALS · RESIDENCES · PENITENTIARY CENTERS

SERVICES

Tecnove offers the possibility of performing personalized services for the partial or complete management of the customer's facilities, which due to their remote location require 24/7 attention, ensuring that whoever inhabits them, does so safely and effectively.

In that sense we take care of preserving and fine-tuning these facilities, offering an optimal service of laundry, cleaning and disinfection, as well as any other service that allows to create a home anywhere in the world.

SETTING-UP: electrical, mechanical ...
MACHINERY • EQUIPMENT: generators, air conditioning ...

The maintenance services of infrastructures, machinery and equipment guarantee the optimal state of conservation and the total operability of all the systems of the client's facilities.

In addition, we perform a complete maintenance of solar parks, planning and executing all the necessary works to make the operation of the park adequate.

Cleaning

Our cleaning and disinfection service includes both integral and routine cleaning of buildings and facilities, as well as the treatment, recovery and restoration of all types of floors, by using techniques and products appropriate to each situation.

Laundry

The laundry service is aimed at work uniforms, personal garments, tablecloths, bed linen, etc. and includes the washing, drying, reviewing and ironing of the garments, always guaranteeing an adequate treatment that keeps them in perfect condition.

Health Services

It is essential to have a health service that ensures the well-being of all people residing in the facilities, especially when they are located in areas of difficult access. It is advisable to have medical assistance in specific hospitalization units together with vehicles for the transfer of patients to carry out a rapid and effective intervention if necessary.

Complementary Services

Tecnove wants to provide its clients with an excellent, comfortable and healthy stay within its own facilities, offering complementary services such as gym, WI-FI room, hairdresser, sewing service, language courses, games and sports equipment.

Along with these services we also have services such as gardening, waste management, pest control, transport by any means, drinking water supply, food or fuel, etc.

CONSTRUCTION

We design and build modular buildings and installations in accordance with basic principles: energy efficiency, material optimization, spatial quality and durability.

The execution of our construction projects caters to specific needs and clients, companies with macro-projects in which a space is needed to house people and material goods, or military bodies deployed in conflict zones.

Therefore we always study the type of construction that best suits the purpose, the situation of the terrain and other factors such as the climate or the duration of the project/mission.

Tecnove has experience in the modular construction of facilities for civil or military use, quartering, bases for international missions, offices, canteens and temporary accommodation ensuring its full operation anywhere in the world.

The construction is based on a system using transpack containers that allows to reduce costs due to its easy logistics and assembly, in addition to taking advantage of the available space up to 3 heights, being able to make successive extensions with total freedom.

Modular buildings

We design and build modular buildings with a wide range of options that allow a wide variety of uses and configurations.

The great experience and quality of the products used ensure total functionality and maximum habitability and comfort even in the most extreme conditions.

Reforms and Civil works

Tecnove applies its experience in the construction sector to other works such as civil works.

In addition, we adapt any other type of building or space, restructuring or rehabilitating it, adapting it to the current legal regulations and the spatial and aesthetic needs of each client.
