## BUSINESS GROUP

### “WORKING TOGETHER FOR YOU”

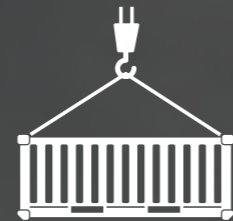

Tecnove Business Group is a holding company made up of 10 companies which work together on a daily basis to maintain the leadership in each of the sectors in which they are present.

The knowledge and experience of 35 years of career, as well as the contribution of each and every one of the companies, allow us to optimise results, provide integrated solutions, and offer the best customised products and services anywhere in the world.

#### VEHICLES

We design, manufacture and maintain all types of bobywork and special vehicles, incorporating the latest technology and customisation of our units.

#### CONTAINERS

We design and manufacture containers and shelters for all types of activities and uses, both civil and military.

#### CORPORATE IMAGE

We create and implement the image, the furniture and the digital media for any company.

#### CSC

We design, build and manage modular buildings and modular facilities ensuring maximum efficiency anywhere in the world.

#### TELECOM

Services applied to telecommunications: Fixed and mobile networks, Outsourcing-logistics engineering, Infrastructure and Civil Works.

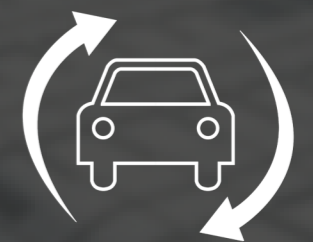

#### AGRIBUSINESS

We commercialize phytosanitary products, industrial cleaning, advice and management of wine-growing, other crops and forestry planning and management.

#### ELECTRICAL SOLUTIONS

We carry out the management and maintenance of photovoltaic and thermosolar plants as well as the processing and management of electrical installations in general.

#### REMARKETING

Reconditioning of fleets of used cars for the commercialisation in the second-hand market through online channels.

An aerial photograph of a lush green forest with a winding stream. A person is visible walking through the stream in the center of the image. The image is used as a background for the entire page.

## FOREST MANAGEMENT

Tecnove Forestry was created with the idea of offering our clients Sustainable Forestry management.

In the last three years we have managed more than 300.000 hectares of wooded areas through varied works for which studies are carried out prior to our action, with the aim of evaluating the impact on the natural environment so that the final result can be planned in the long term.

We are committed to training as a fundamental basis for both public and private institutions to promote the sustainable management of the natural spaces that surround us.

- Management projects
- Dasocratic plans
- Forestry inventory
- Silvicultural report
- Technical plans
- Property protection
- Wood signaling
- Dasocratic signaling
- Grants and subsidies procesing
- Forestry management advice
- Silvicultural works
- Reforestation
- Forestry infraestructure and works

## FORESTRY PLANNING & HILL MANAGEMENT

Instruments of sustainable Forestry Management that serve as planning tools for forest mass, guaranteeing their good management.

Spatial-temporal organization of forest resources.

## SILVICULTURAL REPORT

Specific and reliable description of all information present in the tree, shrub and herbaceous. In addition to the terrain configuration.

+80.000 Ha ANALYSED

# FOREST INVENTORY

Field work in which the whole forest is analysed in order to obtain the main mass variables, such as the number of feet, the basimetric area, or the volumen of wood, among others, through the adjustment of statical models.

- Systematic sampling
- LiDAR inventory:  
individual Mass
- Foot by foot

+200.000 Ha INVENTORIED

# TECHNICAL PLANS

+11.000 Ha  
ORDERED

- Hunting  
management
- Silvoherding plans
- Exploitation of resins,  
cork, etc.

## SIGNALING AND PLACING OF WOOD

Silvicultural intervention in a mass of trees, in which the trees to be cut are selected, physically marked and measured, following a Forest Management objective.

+400 Ha MARKED

Wood  
Signaling

Marking:  
Chaspe  
Painting

Cubing

## PROPERTY PROTECTION

+5.000 Ha  
WORKED

Boundaries

Demarcations

Property studies

Cartographic updating  
Land surveying and  
staking out.

## SIGNALING DASOCRATIC

Marking by painting the boundaries of the stands that make up a hill.

## DISCLOSURE

Training and information days • Talk and videos

## INFRASTRUCTURE CONSTRUCTION & MAINTENANCE

- Forest roads
- Water crossings
- Retaining walls
- Water troughs
- Shelters
- Enclosures
- Cattle grid
- Gates
- Cattle corrals and corrals
- Recreational areas: green areas
- Digitalization and outline of paths

## SILVICULTURAL TREATMENTS

Works to maintain hills in an optimal state from the point of view of production and conservation.

Weeds:

Manual

Mechanized

Prunes and clearing

Removal of debris

## REFORESTATION

Set of necessary techniques to create a mass forest, stable with the environment and which, adopting the desired characteristics, fulfils the purposes demanded of it.

Land  
preparation

Plantation

Maintenance
