TECNOVE

"Wherever you need us"

TECNOVE

TECNOVE is a company founded and established in Herencia, Ciudad Real, that carries out its activity in different sectors. Its work and evolution are marked by quality, innovation and customer service.

Its main lines of business are:

Vehicles

Design, manufacture and maintenance of bodyworks and special vehicles

Containers

Design and manufacture of containers and shelters for all types of uses and activities

CSC | Catering · Services · Construction

Construction of modular facilities, maintenance, cleaning, catering, etc

Forestry management

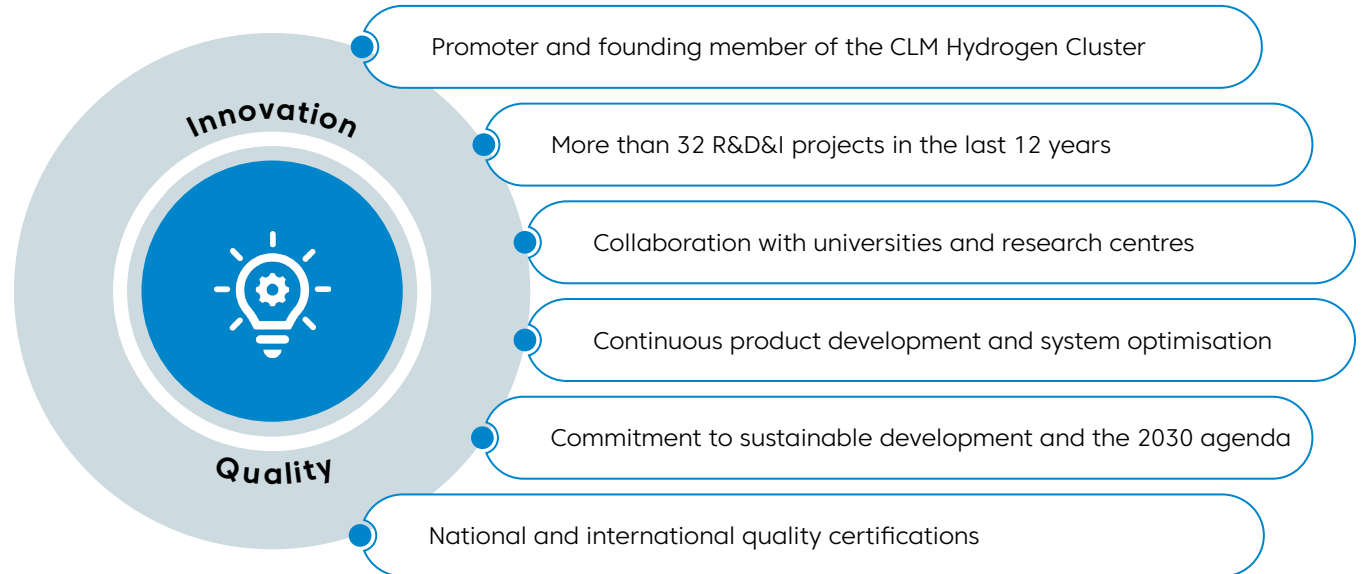

Advice and management of agricultural holdings. Forestry planning and operation

TECNOVE

BUSINESS GROUP

TECNOVE is part of a trade group made up of 10 companies that carry out their activities together in the **TECNOVE Business Group**.

This adds to the business lines image and furniture solutions, telecommunications, energy and remarketing.

**People,
the epicentre
of our culture
and principles**

CSC solutions

In **TECNOVE** we create a home wherever our clients need it, offering an integral solution for camps, living bases or modular buildings that includes the following aspects:

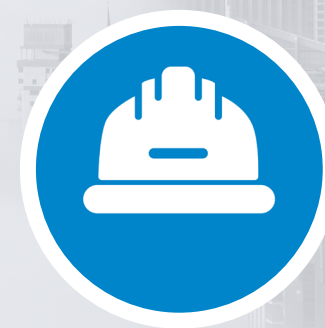

- We offer **catering services** for companies, groups and both public and private centers.
- We provide the client with the necessary **cleaning and maintenance services** to guarantee the operability of their facilities.
- We take care of the **construction** of modular buildings and temporary or fixed installations.

Catering

Services

Construction

Catering

TECNOVE offers **catering services aimed at various areas**, ensuring that each menu prepared meets **specific nutritional requirements** and is adapted to the needs of each diner depending on their health, geographical or cultural situation, through **quality ingredients** and **strict preparation phases**.

It also manages the **supply of food products** and their logistics to ensure a personalized diet.

- **Camps and life bases**
- **Companies and groups**
- **Public and private institutions**

Catering

Camps & life bases

More than 20 years of experience in the supply, logistics and feeding of soldiers in peace missions, make it possible for **TECNOVE** to offer **complete catering services to companies involved in macro projects located in areas of difficult access**, in fields such as energy, mining or oil.

The menus are prepared, cooked and served in a specific way according to the preferences and needs of the clients, the characteristics of the project or the geographical origin of the diners.

Catering

Companies and groups

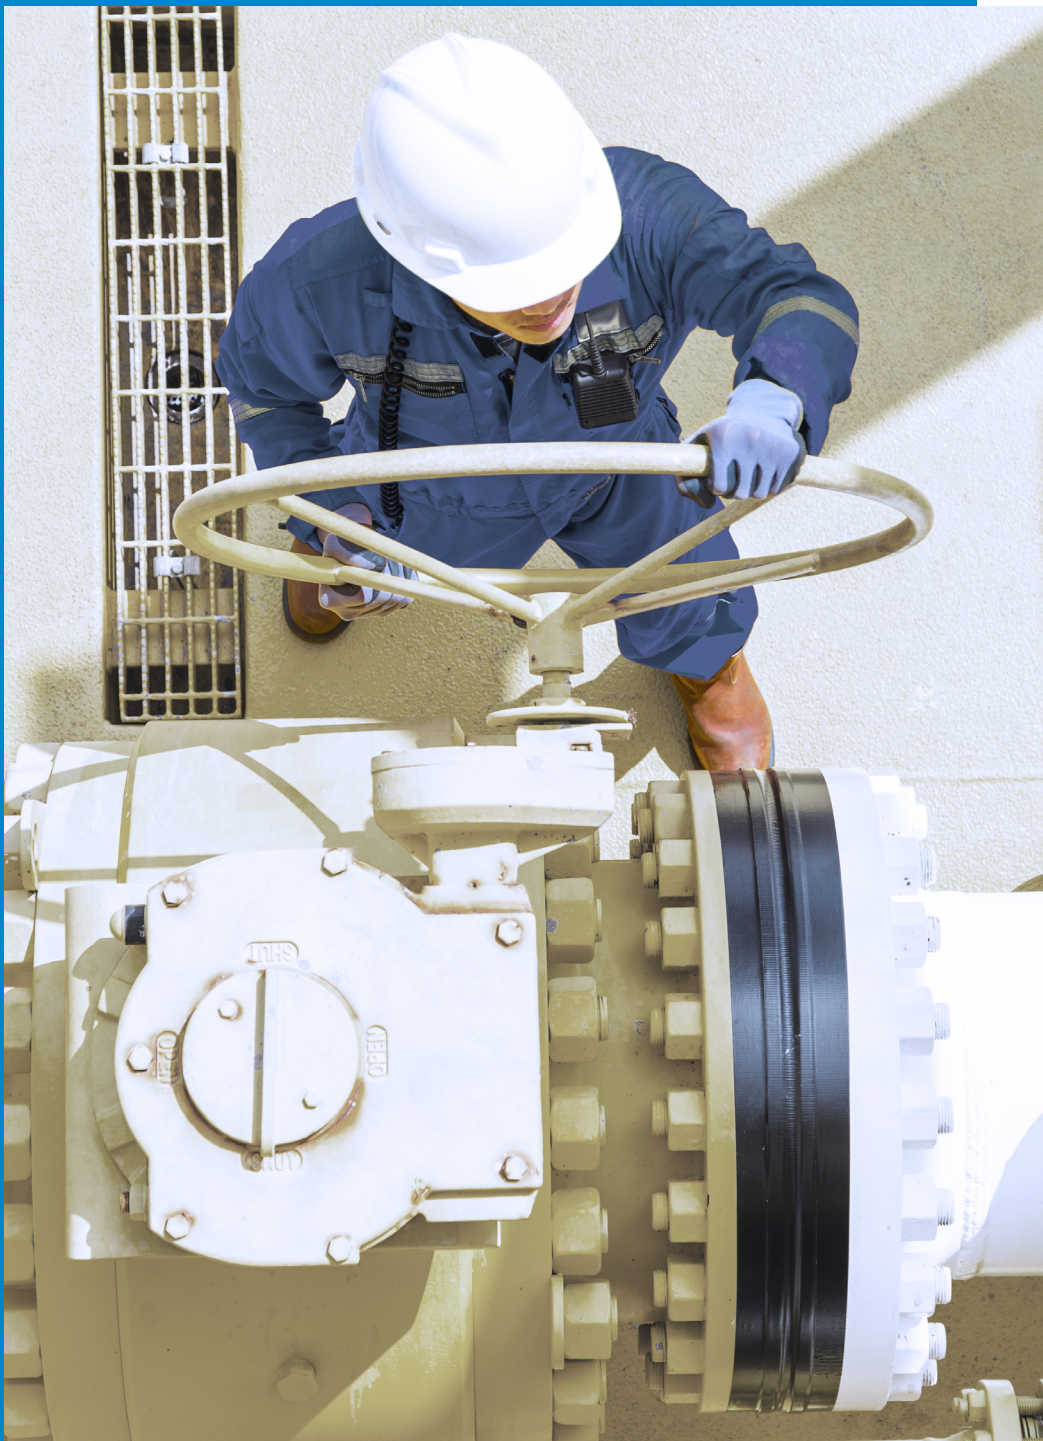

TECNOVE offers catering services based on the **planning and service of three meals a day**, adding other services such as night support meals to meet special situations that may arise, live cooking, preparation of take-out menus or nutritional advice.

Public and private institutions

In hospitals or residences, food is a very important factor, so **TECNOVE** guarantees a **top-quality service with the best suppliers** and with a **wide variety of menus** under the strict supervision of highly qualified nutritionists.

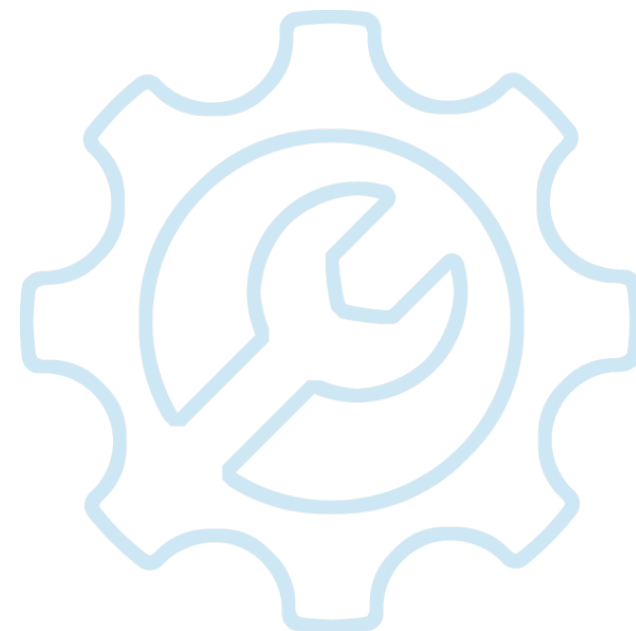

Services

TECNOVE offers the possibility of **personalized services** for the **partial or complete management of the client's facilities**, which due to their remote location, require 24/7 attention, ensuring that those who live in them, do so safely and effectively.

The **maintenance and commissioning of these facilities** offers an optimal laundry, cleaning and disinfection service, as well as any other service that allows the creation of a home anywhere in the world.

- Maintenance
- Cleaning
- Laundry
- Other services

Services

Maintenance

A proper maintenance service of infrastructures, machinery or technical equipment ensures an **optimal state of conservation** and a **complete operability** of the client's facilities.

Cleaning

The **cleaning and disinfection** service offered by **TECNOVE** covers **both the comprehensive and routine cleaning of buildings and facilities**, as well as the treatment, recovery and restoration of all types of floors.

Services

Laundry

The **laundry service** is aimed at work uniforms, personal garments, table linen, bed linen, among others. In addition to **washing, drying, finishing and ironing of the garments** is included, guaranteeing adequate treatment to keep them in perfect condition.

Other services

In order to guarantee the best quality and during any stay, **complementary services** such as hairdressing, gym, WiFi room, language courses or game rooms are offered. Services such as gardening, medical assistance, pest control, transportation or water supply are also offered.

Construction

TECNOVE designs and builds **modular buildings and facilities** always complying with **principles based on energy efficiency, material optimization, spatial quality and durability.**

The execution of the projects meets specific needs and **clients** whose requirements are for a space to house people and material goods, or military forces deployed in conflict zones. This is why **we always study the type of construction that best suits** the purpose, the situation of the terrain and other factors such as the weather or the duration of the project or mission.

- **Camps and life bases**
- **Field hospitals**
- **Modular buildings**
- **Refurbishment and civil work**

Construction

Camps & life bases

The modular construction concept is used to **build camps and bases or mission accommodation**, among others. The construction consists of a series of modular containers that allow successive extensions and the use of the available space up to 3 storeys high.

Field hospitals

TECNOVE offers the manufacture of tailor-made **field hospitals, suitable for quick and easy deployment in any location**. They are equipped with all the necessary medical equipment and furniture to be able to offer health care on site.

Construction

Modular buildings

We design and build modular buildings with a wide range of options that allow a **great diversity of uses and configurations**.

Refurbishment & civil work

TECNOVE performs other works such as civil works, as well as adapting any other type of building or space, restructuring and adapting it to the current legal regulations and the spatial and aesthetic needs of each client.

We create a home wherever you need it

In **TECNOVE** we join companies that are developing large infrastructure projects, humanitarian organizations or military contingents in peace missions, wherever they need us.

Our main objective is to offer excellent living conditions for the people deployed in each project or mission to facilitate their daily life.
